

MIS001 LONG JOHN Men

Sizes 46 ,48, 50, 52, 54, 56, 58, 60

Colors black (BLA)

Overview:

The thickness of the neoprene as well as the upper and bottom finish were chosen carefully to meet the need of each body area. Knee panels are made of abrasion resistant and anti-slippery Tatex to help you stay on the board when kneeling. Smooth skin on the chest panel limits evaporation in the area and adds on insulation. The front zipper entry allows you to regulate temperature as well. If necessary it can unzip to ventilate your upper body.

Technical specs

Material body made of combination of 2,0 / 1,5 mm neoprene, abrasion resistant kneepads made of Tatex

colors: ●

MISW01 LONG JOHN Women

Sizes 34, 36 , 38, 40, 42 , 44 , 46

Colors black (BLA)

Overview:

Designed with the same purpose as the men's version long john for women features the same materials with the same functions. The pattern is adjusted for women body type to fit comfortably yet tightly so the long john fulfills its insulation function.

Technical specs

Material body made of combination of 2,0 / 1,5 mm neoprene, abrasion resistant kneepads made of Tatex

colors:

MIS002 HOODIE JACKET Men

Sizes S, M, L, XL, 2XL

Colours white (WHI) black (BLA)

Overview:

This hoodie is made of coated fleece - material very popular among professional paddlers who are forced to train in a cold weather. The material is waterproof so it can serve as rain coat that offers protection even in windy conditions.

Technical specs:

Material Aqual - Polyester Fleece with PU coating

colors:  

colors:  

MIS003 SPAN - T long sleeve

Sizes S, M, L, XL, 2XL
Colours black (BLA) blue (BLU)

MIS004 SPAN - T short sleeve

Sizes S, M, L, XL, 2XL
Colours black (BLA) blue (BLU)

Overview:

The shirts are made of extremely elastic and soft neoprene. Fitted construction provides enough insulation despite the neoprene being only 0.5 mm thin. Elasticity provides great comfort when paddling. The shirts can be worn alone or as a base layer under long johns or paddle jacket.

Technical specs

Material Neospan - 0,5 mm neoprene

MISW002 HOODIE JACKET Women

Sizes S, M, L, XL

Colours white (WHI) black (BLA)

Overview:

Made of the same waterproof material as the men's version this jacket is great to wear both on the SUP and on the shore to protect against rain and wind. Thanks to the fleece on the inside it is very comfortable to be worn on skin.

Technical specs

Material Aqual - Polyester Fleece with PU coating

MIS006 HIGH SHOES

Sizes 4, 5, 6, 7, 8, 9, 10, 11, 12, 13

Colours black (BLA)

MIS007 LOW SHOES

Sizes 4, 5, 6, 7, 8, 9, 10, 11, 12, 13

Colours black (BLA)

Overview:

Lower shoes offer protection when walking on the shore and keep your toes warm when paddling. The circular finish seals the shoe around the ankle so it does not slip off, and prevents excessive amounts of water from getting inside the shoes when swimming.

Higher version serves to protect your ankles from breeze and cold water. Two adjustment systems on the shoe allow you to fit the shoes comfortably and prevent them from slipping off in water.

Split toe on both versions helps to maintain a balance on the board.

Technical specs

Material 4 mm neoprene

MIS008 SPAN GLOVES

Sizes 2XS, S, M, L, XL, 2XL
Colours black (BLA)

Overview:

Made of extremely elastic neoprene the gloves are designed to provide good feel in a grip. The gloves offer good protection in a cold weather and prevent blisters. Special print on the palm has adhesive function and prevents the paddle from twisting in your hand. Adjusting strap around wrist keeps the water from getting inside of the glove.

Technical specs

Material Neospan - 0,5 mm neoprene

MIS013 SPLASH CAG

Sizes S, M, L, XL, 2XL

Colours blue (BLU)

colors:

Overview:

Made of super light waterproof fabric the cag can be used in rain on a shore or when stand up paddling on flat water in windy and rainy conditions. Adjustable hood helps to protect even in strong wind. Long front zipper eases the entrance and it serves as ventilation when needed. There is a comfortable fleece on the inside of the collar offering more comfort around your neck. The neoprene cuffs around wrists offer both insulation and prevent water from entering the cag through sleeves. The waist is adjustable using rubber cord.

Technical specs

Material Nylon Ripstop, 150 g/m², waterproof/breathable: 10.000 mm H₂O/5.000 g/m²/24 hr

MIS014 SPLASH PANTS

Sizes S, M, L, XL, 2XL
Colours blue (BLU)

Overview:

Made of light ripstop fabric these pants complement the MIS014 - offering protection in light wind and rain. They are equipped with neoprene waist that helps to prevent water from seeping inside the pants and also it keeps the sensitive part of lower back warm..

Technical specs

Material Nylon Ripstop, 150 g/m², waterproof/breathable: 10.000 mm H₂O/5.000 g/m²/24 hr

colors:

MIS017 BASIC PFD

Sizes XS, S/M, L/XL, 2XL
Colours blue (BLU), red (RED)

Overview:

This basic buoyancy aid is equipped with two pairs of tightening straps on the side and rubber cord to tighten the jacket in the bottom so it does not slide up. Pliable foam wraps nicely around the body.

It meets the ISO standards - 12402-5.

Technical specs

colors:

MIS023 KIDS PFD

Sizes 1, 2, 3
Colours orange (ORA)

colors: 

Overview:

Life jacket is designed for children. Safety collar keeps the head of a child above water. Two horizontal straps allow adjustment around the body and one strap running in between legs prevents the life jacket from sliding up. Safety reflexive straps increase visibility. The life jacket is equipped with safety plastic whistle.

It meets standard ISO-12402-4

Technical specs

Material Polyester 150D, inside PE floating foam

MIS025 SPLASH CAG Kids

Sizes 88, 116, 130

Colours blue (BLU)

colors:

Overview:

Constructed from light ripstop material the jacket is designed to protect the child from light breeze and rain. Neoprene v-neck is adjustable allowing comfortable entrance; properly tightened it keeps splashing water out of the cag. Neoprene cuffs around wrists are adjustable through velcro system. They prevent excessive amounts of water from slipping up the sleeves.

Technical specs

Material Nylon Ripstop, 150 g/m², waterproof/breathable: 10.000 mm H₂O/5.000 g/m²/24 hr

MIS026 SPLASH PANTS Kids

Sizes 88, 116, 130

Colours blue (BLU)

Overview:

Complementing the cag the pants are made from the same material as MIS025. They can be tighten around the waist using elastic cord. Elastic shoulder straps are adjustable as well. The pants are equipped with a zipper pocket.

Technical specs

Material Nylon Ripstop, 150 g/m2, waterproof/breathable: 10.000 mm H2O/5.000 g/m2/24 hr

colors:

MIS027 RACE CAG

Sizes S, M, L, XL, 2XL
 Colours white (WHI) black (BLA)

colors:  

Overview:

Constructed from light and elastic fabric this cag was originally designed for top waterslalom racers. Thanks to the flexibility the material offers it does not restrain movement and it became popular among freestyle as well. This cag is great to use when racing in cold weather or whenever your priority is performance. The zipper in the front has a ventilation purposes - zipped up going against the wind and zipped down going with it you can regulate the temperature.

Technical specs

Material Nylon Flex, 135 g/m², waterproof/breathable: 10.000 mm H₂O/5.000 g/m²/24 hr

MIS031 SOCKS 5 mm

Sizes 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14
 Colours black (BLA)

Overview:

The socks are made of 5 mm neoprene offering extreme insulation. The bottom is protected with Tatex that offers both protection against abrasion and helps to keep your feet on the bord thanks to its antislippery effect. Neoprene socks are great to use when you want to keep your feet warm and maintain a good contact with a board.
